

#### **Place-Value - Count**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Recite numbers past 5.  Say one number for each item in order: 1,2,3,4,5.  Know that the last number reached when counting a small set of objects tells you how many there are in total ('cardinal principle').  Count objects, actions and sounds.  Count beyond ten.  Verbally count beyond 20, recognising the pattern of the counting system.	<ul> <li>Count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number.</li> <li>Count numbers to 100 in numerals; count in multiples of twos, fives and tens.</li> </ul>	Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward.	Count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number.	<ul> <li>Count in multiples of 6, 7, 9, 25 and 1000.</li> <li>Count backwards through zero to include negative numbers.</li> <li>NOTE: in the WRM scheme, negative numbers are introduced in Year 5.</li> </ul>	<ul> <li>Count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000.</li> <li>Count forwards and backwards with positive and negative whole numbers, including through zero.</li> </ul>	

#### Place-Value - Represent

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Develop fast recognition of up to 3 objects, without having to count them individually ('subitising').  Show "finger numbers' up to 5.  Link numerals and amounts: for example, showing the right number of objects to match the numeral, up to 5.  Experiment with their own symbols and marks as well as numerals.  Subitise.  Link the number symbol (numeral) with its cardinal number value.  Subitise (recognise quantities without counting) up to 5.	<ul> <li>Identify and represent numbers using objects and pictorial representations.</li> <li>Read and write numbers to 100 in numerals.</li> <li>Read and write numbers from 1 to 20 in numerals and words.</li> </ul>	Read and write numbers to at least 100 in numerals and in words.      Identify, represent and estimate numbers using different representations including the number line	Read and write numbers up to 1000 in numerals and in words.      Identify, represent and estimate numbers using different representations.	Identify, represent and estimate numbers using different representations.     Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.	Read, write, (order and compare) numbers to at least 1 000 000 and determine the value of each digit.      Read Roman numerals to 1000 (M) and recognise years written in Roman numerals.	Read, write (order and compare) numbers up to 10 000 000 and determine the value of each digit.

'first', 'then...'

Subitise (recognise quantities without counting) up to 5.

Addition & Subtraction: Problems							
Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
Solve real world mathematical problems with numbers up to 5.  Begin to describe a sequence of events, real or fictional, using words such as 'first', 'then'  Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed evenly.	Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as  7 =  9	Solve problems with addition and subtraction:  using concrete objects and pictorial representations, including those involving numbers, quantities and measures.  applying their increasing knowledge of mental and written methods.	Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.	Solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.	<ul> <li>Solve addition and subtraction multistep problems in contexts, deciding which operations and methods to use and why.</li> <li>Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign.</li> </ul>	Solve addition and subtraction multi- step problems in contexts, deciding which operations and methods to use and why.	

### Multiplication & Division: Recall/Use

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Explore the composition of numbers to 10.  Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed evenly.  Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.		<ul> <li>Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers.</li> <li>Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot.</li> </ul>	Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables.	<ul> <li>Recall multiplication and division facts for multiplication tables up to 12 × 12</li> <li>Recognise and use factor pairs and commutativity in mental calculations.</li> <li>Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers.</li> </ul>	<ul> <li>Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.</li> <li>Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers. To establish whether a number up to 100 is prime and recall prime numbers up to 19.</li> <li>Recognise and use square numbers, and the notation for squared and cubed.</li> <li>Multiply and divide numbers mentally drawing upon known facts.</li> </ul>	<ul> <li>Perform mental calculations, including with mixed operations and large numbers.</li> <li>Identify common factors, common multiples and prime numbers.</li> <li>Use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy.</li> </ul>

### **Multiplication & Division: Calculations**

·							
Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
		Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (×), division (÷) and equals (=) signs.	Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods.	Multiply two-digit and three-digit numbers by a one-digit number using the formal written layout of short multiplication with exact answers.     Become fluent in the formal written method of short division with exact answers.	<ul> <li>Multiply numbers up to four digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers fluently.</li> <li>Divide numbers up to four digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context fluently.</li> <li>Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000.</li> <li>Multiply and divide numbers mentally drawing upon known facts.</li> </ul>	<ul> <li>Multiply multi-digit numbers up to four digits by a two-digit whole number using the formal written method of long multiplication.</li> <li>Divide numbers up to four digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context.</li> <li>Divide numbers up to four digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context.</li> <li>Perform mental calculations, including with mixed operations and large numbers.</li> </ul>	

### **Multiplication & Division: Problems**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed evenly.	Solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher.	Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts.	Solve problems including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects.	Solve problems involving multiplying and adding, including using the distributive law to multiply two-digit numbers by one digit, integer scaling problems and harder correspondence problems, such as n objects are connected to m objects.	<ul> <li>Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes.</li> <li>Solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates.</li> <li>Solve problems involving simple rates.</li> <li>Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign.</li> </ul>	Solve problems involving addition, subtraction, multiplication and division.      Use their knowledge of the order of operations to carry out calculations involving the four operations.

#### **Fractions: Recognise, Write, Compare**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	Recognise, find and name a half as one of two equal parts of an object, shape or quantity.     Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity.	Recognise, find, name, identify and write fractions  1 1 2 3 4 4 and 4  of a length, number, shape, set of objects or quantity.	Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10. Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators. Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators.		Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths.     Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number.	
		Recognise the equivalence of      1     and 2.	<ul> <li>Recognise and show, using diagrams, equivalent fractions with small denominators.</li> <li>Compare and order unit fractions, and fractions with the same denominators.</li> </ul>	Recognise and show, using diagrams, families of equivalent fractions	Compare and order fractions whose denominators are all multiples of the same number.	<ul> <li>Use common factors to simplify fractions; use common multiples to express fractions in the same denomination.</li> <li>Compare and order fractions, including fractions &gt; 1.</li> </ul>

#### **Fractions: Calculations and Solve Problems**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		● Write simple fractions for example ½ of 6 = 2	Add and subtract fractions with the same denominator within one whole (for example 5/7 + 1/7 = 6/7).	Add and subtract fractions with the same denominator.	Add and subtract fractions with the same denominator and denominators that are multiples of the same number.     Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams.	<ul> <li>Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions.</li> <li>Multiply simple pairs of proper fractions, writing the answer in its simplest form (for example ¼ x ½ = 1/8).</li> <li>Divide proper fractions by whole numbers (for example 1/3 ÷2 = 1/6).</li> </ul>
			Solve problems that involve all of the above.	Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number.		

#### **Decimals: Recognise, Write, Compare**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
				<ul> <li>Recognise and write decimal equivalents of any number of tenths and hundredths.</li> <li>Recognise and write decimal equivalents to ¼, ½ and ¾.</li> <li>Round decimals with one decimal place to the nearest whole number.</li> <li>Compare numbers with the same number of decimal places up to two decimal places.</li> </ul>	<ul> <li>Read and write decimals numbers as fractions (for example 0.71 = 71/100).</li> <li>Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents.</li> <li>Round decimals with two decimal places to the nearest whole number and to one decimal place.</li> <li>Read, write, order and compare numbers with up to three decimal places.</li> </ul>	Identify the value of each digit in numbers given to three decimal places.

#### Fractions, decimals and percentages

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
				Solve simple measure and money problems involving fractions and decimals to two decimal places.	<ul> <li>Recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred' and write percentages as a fraction with denominator 100, and as a decimal.</li> <li>Solve problems which require knowing percentage and decimal equivalents of ½, ¼, 1/5, 2/5, 4/5 and those fractions with a denominator of a multiple of 10 or 25.</li> </ul>	Associate a fraction with division and calculate decimal fraction equivalents for a simple fraction.     Recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.

scale factor is known or can be

Solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.

found.

## South Parade Primary School – Maths Progression Map – May 2023

#### **Ratio and Proportion Three and Four-Year-Olds** Reception Year 1 Year 2 Year 4 Year 5 Year 3 Year 6 **Early Learning Goals** Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts. Solve problems involving the calculation/use of percentages for comparison. Solve problems involving similar shapes where the

#### Algebra

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as  7 = □ ■ 9	Recognise and use the inverse relationship between addition and use this to check calculations and solve missing number problems.	Solve problems, including missing number			<ul> <li>Use simple formulae.</li> <li>Generate and describe linear number sequences.</li> <li>Express missing number problems algebraically.</li> <li>Find pairs of numbers that satisfy an equation with two unknowns.</li> <li>Enumerate possibilities of combinations of two variables.</li> </ul>

Note: although formal algebraic notation is not introduced until Y6, algebraic thinking starts much earlier as exemplified by the 'missing number' objectives from Y1/2/3

### **Using Measures**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
objects relating to size, length, weight and capacity.	<ul> <li>Compare, describe and solve practical problems for:         <ul> <li>lengths and heights</li> <li>mass/weight</li> <li>capacity and volume</li> <li>time.</li> </ul> </li> <li>Measure and begin to record the following:         <ul> <li>lengths and heights</li> <li>mass/weight,</li> <li>capacity and volume</li> <li>time (hours, minutes, seconds)</li> </ul> </li> </ul>	Choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels. Compare and order lengths, mass, volume/capacity and record the results using >, < and =.	Measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml).	Convert between different units of measure (for example, kilometre to metre; hour to minutes). Estimate, compare and calculate different measures.	<ul> <li>Convert between different units of metric measure.</li> <li>Understand and use approximate equivalences between metric units and common imperial units.</li> <li>Use all four operations to solve problems involving measure using decimal notation, including scaling.</li> </ul>	Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate.      Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places.      Convert between miles and kilometres.

#### Money

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	Recognise and know the value of different denominations of coins and notes.	<ul> <li>Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value.</li> <li>Find different combinations of coins that equal the same amounts of money.</li> <li>Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change.</li> </ul>	Add and subtract amounts of money to give change, using both £ and p in practical contexts.	Estimate, compare and calculate different measures, including money in pounds and pence.	Use all four operations to solve problems involving measure (for example, money).	

#### South Parade Primary School – Maths Progression Map – May 2023

#### **Time Three and Four-Year-Olds** Reception Year 1 Year 2 Year 3 Year 4 Year 5 Year 6 **Early Learning Goals** Tell and write the Read, write and Solve problems Use, read, write Sequence events in Compare and Begin to describe a time from an chronological order sequence intervals convert time involving and convert sequence of events, real or analogue clock, using language (for of time. between analogue converting between standard fictional, using words, such including using example, before Tell and write the and digital 12between units of units, covering as 'first', 'then...' Roman numerals and 24-hour and after, next, first, time to five time. measurements of from I to XII. and clocks. time from a today, yesterday, minutes, including 12-hour and tomorrow, morning, Solve problems smaller unit of quarter past/to the 24-hour clocks. afternoon, evening). hour/half hour and involving measure to a Estimate and read Recognise and use draw the hands on converting from larger unit and vice time with language relating to hours to minutes; versa a clock face to increasing dates, including show these times. minutes to accuracy to the days of the week, Know the number seconds; years to nearest minute; weeks, months and months; weeks of minutes in an record and hour and the to days. years. compare time in Tell the time to the number of hours in terms of seconds, Note: In WRM hour and half past a dav. minutes schemes, time the hour and draw and hours. conversions are the hands on a Use vocabulary such as o'clock, covered in Y5: the Y6 clock face to show a.m./p.m., block concentrates on these times. morning, metric units. afternoon, noon and midnight. Know the number of seconds in a minute and the number of days in each month, year and leap year. Compare durations of events (eg to calculate time

taken by particular events or tasks).

### Perimeter, area and volume

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			Measure the perimeter of simple 2D shapes.	Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres.     Find the area of rectilinear shapes by counting squares.	<ul> <li>Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres.</li> <li>Calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm²) and square metres (m²) and estimate the area of irregular shapes.</li> <li>Estimate volume (for example using blocks to build cuboids) and capacity (for example using water).</li> </ul>	<ul> <li>Recognise that shapes with the same areas can have different perimeters and vice versa.</li> <li>Recognise when it is possible to use formulae for area and volume of shapes.</li> <li>Calculate the area of parallelograms and triangles.</li> <li>Calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm³) and cubic metres (m³), and extending to other units (for example, mm³ and km³).</li> </ul>

#### 2-D Shapes

Three and Four-Year-Olds						
Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
<b>Early Learning Goals</b>						
Talk about and explore 2D and 3D shapes (for example, circles, rectangles, triangles and cuboids) using informal and mathematical language: 'sides', 'corners'; 'straight', 'flat', 'round'.  Select shapes appropriately: flat surfaces for building, a triangular prism for a roof etc.  Combine shapes to make new ones - an arch, a bigger triangle etc.  Select, rotate and manipulate shapes in order to develop spatial reasoning skills  Compose and decompose shapes so that children recognise a shape can have other shapes within it, just as numbers can.	Recognise, and name common 2-D shapes (for example, rectangles including squares, circles and triangles).	<ul> <li>Identify and describe the properties of 2D shapes, including the number of sides and line symmetry in a vertical line.</li> <li>Identify 2D shapes on the surface of 3D shapes (for example, the circle on a cylinder and a triangle on a pyramid).</li> <li>Compare and sort common 2-D shapes and everyday objects.</li> </ul>	Draw 2-D shapes	<ul> <li>Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes.</li> <li>Identify lines of symmetry in 2-D shapes presented in different orientations.</li> </ul>	<ul> <li>Distinguish between regular and irregular polygons based on reasoning about equal sides and angles.</li> <li>Uses the properties of rectangles to deduce related facts and find missing lengths and angles.</li> </ul>	<ul> <li>Draw 2-D shapes using given dimensions and angles.</li> <li>To illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius.</li> <li>Compare and classify geometric shapes based on their properties and sizes.</li> </ul>

#### 3-D Shapes

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Talk about and explore 2D and 3D shapes (for example, circles, rectangles, triangles and cuboids) using informal and mathematical language: 'sides', 'corners'; 'straight', 'flat', 'round'.  Select shapes appropriately: flat surfaces for building, a triangular prism for a roof etc.  Combine shapes to make new ones - an arch, a bigger triangle etc.  Select, rotate and manipulate shapes in order to develop spatial reasoning skills  Compose and decompose shapes so that children recognise a shape can have other shapes within it, just as numbers can.	Recognise and name common 3-D shapes (for example, cuboids including cubes, pyramids and spheres).	<ul> <li>Recognise and name common 3-D shapes (for example, cuboids including cubes, pyramids and spheres).</li> <li>Compare and sort common 3-D shapes and everyday objects on the basis of their properties and use vocabulary precisely.</li> </ul>	Make 3-D shapes using modelling materials.     Recognise 3-D shapes in different orientations and describe them.		Identify 3-D shapes, including cubes and other cuboids, from 2-D representations.	Recognise, describe and build simple 3-D shapes, including making nets.

#### **Angles and Lines**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			<ul> <li>Recognise angles as a property of shape or a description of a turn.</li> <li>Identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn.</li> <li>Identify whether angles are greater than or less than a right angle.</li> <li>Identify horizontal and vertical lines and pairs of perpendicular and parallel lines.</li> </ul>	<ul> <li>Identify acute and obtuse angles and compare and order angles up to two right angles by size.</li> <li>Identify lines of symmetry in 2-D shapes presented in different orientations.</li> <li>Complete a simple symmetric figure with respect to a specific line of symmetry.</li> </ul>	<ul> <li>Know angles are measured in degrees; estimate and compare acute, obtuse and reflex angles.</li> <li>Draw given angles, and measure them in degrees.</li> <li>Identify:</li> <li>angles at a point and one whole turn (total 360°),</li> <li>angles at a point on a straight line and a turn (total 180°)</li> <li>and other multiples of 90°.</li> </ul>	<ul> <li>Find unknown angles in any triangles, quadrilaterals and regular polygons.</li> <li>Recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles.</li> </ul>

#### **Position and Direction**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Understand position through words alone – for example, "The bag is under the table," – with no pointing.  Describe a familiar route.  Discuss routes and locations, using words like 'in front of' and 'behind'.  Draw information from a simple map.  Talk about and identify the patterns around them. For example: stripes on clothes, designs on rugs and wallpaper. Use informal language like 'pointy', 'spotty', 'blobs' etc.  Extend and create ABAB patterns – stick, leaf, stick, leaf.  Notice and correct an error in a repeating pattern.  Continue, copy and create repeating patterns.	Describe position, direction and movement, including whole, half, quarter and three-quarter turns.	Order and arrange combinations of mathematical objects in patterns and sequences. Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise).		<ul> <li>Describe positions on a 2-D grid as coordinates in the first quadrant.</li> <li>Plot specified points and draw sides to complete a given polygon.</li> <li>Describe movements between positions as translations of a given unit to the left/right and up/down.</li> </ul>	Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.	Describe positions on the full coordinate grid (all four quadrants).     Draw and translate simple shapes on the coordinate plane and reflect them in the axes.

#### **Present and Interpret Data**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		<ul> <li>Interpret and construct simple pictograms, tally charts, block diagrams and simple tables.</li> </ul>	Interpret and present data using bar charts, pictograms and tables.	Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.	Complete, read and interpret information in tables, including timetables.	Interpret and construct pie charts and line graphs use these to solve problems.

#### **Solve Statistical Problems**

Three and Four-Year-Olds Reception Early Learning Goals	Year 1		Year 2		Year 3		Year 4		Year 5		Year 6
		•	Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity. Ask and answer questions about totalling and comparing categorical data.	•	Solve one-step and two-step questions using information presented in scaled bar charts and pictograms and tables.	•	Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.	•	Solve comparison, sum and difference problems using information presented in a line graph.	•	Calculate and interpret the mean as an average.
